

BBB + Google: A Powerful Partnership for AI & Career Training

The Better Business Bureau (BBB) is proud to announce a groundbreaking new partnership with Google, through its *Grow with Google* initiative, to offer free access to AI and career training for BBB Accredited Businesses nationwide.

What's the Announcement?

As part of this exciting collaboration, each local BBB will receive 500 free licenses to distribute to their teams and Accredited Businesses. The courses are hosted on Coursera and developed by Google experts—no degree or prior experience required.

Designed to be completed in just 3–6 months of part-time study, these programs provide recognized certificates upon completion and are tailored to build job-ready skills in high-demand fields.

Available Training Opportunities

Google AI Courses

- AI Essentials (10 hours): Learn how to use generative AI tools to enhance productivity and creativity.
- Prompting Essentials (10 hours): Master the art of writing prompts that make AI more effective for your business needs.

Google Career Certificates

- Cybersecurity
- IT Support
- Digital Marketing & E-commerce
- Data Analytics
- Project Management
- UX Design

These courses are designed to equip professionals with practical, job-ready skills to thrive in a rapidly changing digital landscape.

Why It Matters

This partnership reflects BBB's ongoing commitment to supporting workforce development and empowering small businesses with tools and training that foster long-term success. Whether you're a business owner or a team member, this is an opportunity to grow, learn, and lead in today's technology-driven world.

How to Get Access
