BBB Serving Metropolitan New York: Mission

Better Business Bureau (BBB) Serving Metropolitan New York, Long Island, and the Mid-Hudson Region is one of 100 independently incorporated BBBs across North America. BBB is a private, nonprofit, non-governmental organization that helps businesses and consumers by providing objective information, evaluation and education.

BBB is a key resource for consumers looking for information about the reliability and trustworthiness of businesses. Our mission lies as much with supporting good business practices as it does with providing information to consumers so that they can protect themselves from scammers and unethical business practices. The two go hand-in-hand: responsible business practices increase consumer trust, which in turn strengthens the business marketplace.

✔️ **A Community of Trusted Businesses**

Developing and supporting a community of Accredited Businesses that meet its high standards is at the core of the BBB mission. BBB Serving Metro New York’s Accredited Business community is comprised of businesses from a broad array of industries, ranging in size from one- or two-person ventures to Fortune 500 companies.

BBB Accreditation is only available to companies that meet its high standards for business and customer service. BBB Accredited Businesses must pledge to uphold the eight [**BBB Standards for Trust**](#):

- Build Trust
- Advertise Honestly
- Tell the Truth
- Be Transparent
- Honor Promises
- Be Responsive
- Safeguard Privacy
- Embody Integrity

Not every business that applies for accreditation is eligible. After an in-depth review, only those businesses that meet our standards are offered BBB Accreditation, for which they are assessed an annual BBB Accreditation Fee.

BBB Business Accreditation works to inspire confidence among the consumers, government agencies, media, and within the business community by verifying a business’ commitment to uphold the ethical business standards that advance marketplace trust.

**Win-Win: How BBB Accreditation Benefits Businesses**

Companies that are accredited by BBB can highlight their reputation for reliability by displaying the BBB Accredited Business Seal at their place of business, in their advertising, promotional materials, business cards and on their website. Given the faith the public has in BBB as a trusted, preferred source of information about business reliability, the seal symbolizes integrity to potential customers.

BBB Serving Metropolitan New York: Programs

✓ Provides Independent, Unbiased Information and Services for Consumers and Businesses

In 2019, BBB Serving Metro New York logged over 7.34 million requests for information about business reliability on our website and by mail, e-mail, and telephone. BBB Serving Metro New York’s database of Business Profiles on over 133,650 metropolitan area companies is continually updated with feedback, complaints, and data it gets from customers for future reference.

In total, across the 100 plus BBB’s in North America that make up our system, consumers accessed business reliability information more than 183 million times in 2019. These numbers suggest that consumers are being more cautious than ever about where and how they spend their money and are looking for trustworthy information that can help them make informed buying and selling decisions.

Better Business Bureau’s standards, processes, and rating formula ensures that our business profiles are objective and as per our criteria are current and comprehensive as possible. BBB’s business rating formula takes into account 7 key elements:
1. Business’s consumer service history with BBB including consumer reviews and complaints
2. Type of Business
3. Time in Business
4. Transparent Business Practices
5. Honoring commitments to BBB
6. Licensing and government actions known to BBB
7. Advertising issues known to BBB or lack thereof

Businesses are rated against the above elements regardless of accreditation status. Accreditation does not affect business ratings.

**Network of Trust Services**

**Telephone Assistance**

BBB’s Consumer Help Line is available between 10 a.m. and 4 p.m. during business days. BBB Consumer Advisors answer calls according to BBB policy. Consumer advisors provide callers with information on BBB’s business profiles, inform individuals on how to file a complaint, offer guidance on specific marketplace issues and problems, and provide referrals to government agencies, associations and out-of-area BBBs that can give additional service to inquirers. BBB answered over 18,350 consumer phone calls in 2019.

**Customer Service - Online Consumer Assistance**

Visitors to BBB’s websites at bbb.org can file a complaint online, find and read business profiles, and browse a resource library of financial and business guidance, advice, and news.

**Customer Service - Resolving Disputes**

BBB is a destination for people seeking marketplace resolutions. We provide information to help their pre-purchase decisions and successfully resolve consumer disputes ranging from those dealing with inexpensive mail order products to costly home improvement projects. BBB’s Resolution programs aim
to bring businesses and their customers together to reach fair and amicable solutions regarding marketplace issues according to BBB system-wide policy.

In 2019, over 108,000 customers contacted BBB Serving Metro New York to file complaints and consumer reviews about businesses. This number is calculated by adding the total number of complaints and customer reviews opened in 2019. The BBB Resolution team assists consumers with resolving their issues, helps businesses to maintain the goodwill and continued patronage of their customers, and makes sure that both sides have an option to mediate and solve problems without resorting to the costly and burdensome alternative of legal action.

The majority of complaints filed with the BBB each year are resolved by working with the consumer and the business to settle the problem.

Every year, the Dispute Resolution team at BBB Serving Metro New York helps thousands of people obtain restitution from businesses, ranging from reshipment of their ordered products to credit adjustments to full refunds of their purchases. In those cases where BBB was able to communicate with the business, 77% of reportable complaints were closed as resolved in 2019.

Another important function of the BBB is to analyze complaints for patterns or unusual problems that need to be brought to a company’s or industry’s attention. By providing companies with valuable feedback about their customers’ complaints, BBB helps them identify the underlying causes of the problems and provides them with an opportunity to strengthen their customer service. Closed complaint information is covered in the company’s BBB Business Profile to alert prospective customers. Failure to resolve the underlying pattern or problem can also affect the BBB Business Profile letter grade. Under certain circumstances, the BBB cooperates with government agencies to help with investigations and uncover scams.

“I am writing to express my sincere gratitude for your work on my complaint, #XXXXXXX. I was just beside myself with how quickly you resolved an issue I had been working on since August. It’s so great to know that there is an institution in this country still working for American citizens. I say this, without any irony, the BBB is the best of America.”

- Shannon M.

“I am very thankful for the existence of BBB. Otherwise, the consumers would not have a voice against dishonest organizations that use bad tactics to attract people for profit. I learned my lesson: when they offer you a “good deal” watch out for their hidden agenda. It turns out not to be a good deal at all. Thanks BBB…”

- Rosecleia C.

“Thank you for your assistance with my recent order with XXXXXXX in NYC. I have never dealt with a better organized BBB!”

The Arbitration Phase

When disputes cannot be resolved through mediation, BBB may offer arbitration. With the agreement of both parties, a neutral and independent, trained BBB Arbitrator hears each side’s position and renders a decision. Through arbitration, BBB provides businesses and consumers with an impartial, expeditious and fair way to resolve disputes and helps them to avoid the costs associated with litigation.

The automotive industry has made a commitment to resolving customer disputes through BBB arbitration. In 2019, twenty-two car manufacturers participated in a national BBB program called AUTO LINE. Founded in 1978, BBB AUTO LINE is the nation’s oldest and most respected auto warranty dispute resolution program. The AUTO LINE program enables customers to have their vehicle problems resolved by a BBB arbitrator at no cost to the consumer. BBB Serving Metro NY arbitrated 31 AUTO LINE cases in 2019.

BBB continuously strives to educate consumers about fraud prevention and consumer protection issues. During National Consumer Protection Week, BBB joins forces with other groups and agencies to further this mission. On March 5, 2019, the IRS hosted BBB Metro New York for the annual Top Ten press conference to report 2018 consumer complaint and inquiry results. BBB presented the Top Ten categories of complaints and inquiries for 2018, broken down by type of business in addition to the most frequently reported scams filed with Scam Tracker<sup>SM</sup>. BBB was joined by the IRS, U.S. Postal Inspection Service, The New York State Office of the Attorney General, NYS Attorney General, NYS Department of State Division of Consumer Protection, NYS Department of Financial Services New York City Department of Consumer Affairs, US Securities and Exchange Commission, and AARP.

In 2018, BBB received 6,508 complaints concerning Financial Services, the most complained-about category that year. Businesses in this category include banks and banking services, collection agencies, credit cards, insurance companies, and loan providers. Rounding out the top three complaint categories are Online Retailers, Health & Beauty, and Automotive.
Investigations

In the past several years, BBB Serving Metro New York’s Information and Investigations Department has helped to uncover cases of deceptive or fraudulent business activities.

In 2019, your BBB served as a source of information for multiple government investigations by providing information about complaints related to more than 59 investigations and enforcement actions brought by agencies such as the New York City Department of Consumer Affairs, New York State Department of Financial Services, New York Office of the Attorney General, as well as Attorney Generals from a number of other states, the U.S. Department of Justice, the Federal Trade Commission and the U.S. Postal Inspection Service. BBB also performs its own investigations and informs the public about the results on its website and through press releases. In 2019, Metro NY BBB conducted 191 investigations about substandard or fraudulent business practices.

By investigating deceptive practices and challenging false advertising, BBB’s Investigations Department exposes companies that attempt to profit at the expense of responsible businesses and the public and warns consumers about them. When advertising or other standards-based issues are found, BBB first alerts management at the company in question and tries to work with them to help meet BBB Standards. In this way, responsible firms may resolve their problems and maintain the confidence of their customers. When companies fail to address problematic practices or advertising, the incidents are summarized in BBB Business Profiles and, when appropriate, referred to government agencies and the media. BBB also releases advisories on scams and deceptive practices throughout the year on its website and to the media.

Scam of the Year:

The most frequently reported scam to Metro NY BBB related to online purchase scams. These cases involve purchases conducted via e-commerce websites, often when consumers click on a social media ad or find an appealing website offering merchandise. They report being charged immediately, but in many instances ordered items are never delivered, or occasionally, what arrives is of inferior quality with sellers requiring merchandise returns to be sent overseas in order for refunds to be issued. Employment scams were the second most frequent reported scam to BBB Metro New York, and phishing scams were the third most cited report. According to BBB’s 2019 Scam Tracker Risk Report, employment scams were the riskiest scam of 2019, using a calculation involving exposure, susceptibility, and media dollar loss. The median dollar loss to consumers in 2019 increased to $1,500, up from $1,204 in 2018.

Scam Tracker SM:

In 2019, Metro NY BBB received 3,713 submissions to the Scam TrackerSM, BBB’s free interactive tool that provides consumers across North America with a place to report scams and fraud, and to warn others of malicious or suspicious activities. All BBBs operating in Canada and the United States are collecting information from consumers, which is shared with law enforcement agencies for use in identifying and prosecuting scammers.

Of these 3,713 submissions, 1,698 were published as Scams, and 1,552 were determined to be consumer disputes or reviews against legitimate businesses. In those cases, the consumers were referred to file a complaint or customer review. The remaining entries were de-activated because of incomplete or illegible submissions or are under review pending additional research.
Metro NY BBB uses the information in Scam Tracker to track trends, begin investigations, develop reports, and issue consumer alerts as needed.

Advertising Review

BBB conducts an Advertising Review program in order to foster business self-regulation. In 2019, BBB Serving Metro New York performed 295 ad reviews. The BBB Code of Advertising calls for businesses to avoid using misleading, deceptive, and false advertising. It guides BBB’s efforts to protect consumers and assist businesses in promoting their products in a clear and transparent way. BBB regularly monitors websites and local newspapers for misleading advertising. When BBB believes that an advertisement may confuse or deceive consumers, it forwards the ad to the business in question and requests voluntary modification or substantiation of the ad’s claims. Questionable advertising practices that BBB investigates include deceptive claims of results for products or services, false claims of lowest pricing, products advertised as being free and guarantee or warranty offers without disclosure of the applicable terms and conditions. About one-third of the BBB ad review cases resulted in adequate substantiation, revision or discontinuation of challenged ads.

BBB and Media Relations

BBB Serving Metro New York cultivates relationships with media channels and journalists as part of our ongoing effort to educate consumers. BBB helps reporters by offering assistance in investigations, acting as liaison with consumers or fraud victims who may want to share their stories, providing access to knowledgeable BBB executive staff for interviews, and serving as a source for general business and consumer-related information. By working together with media, BBB seeks to share useful information with consumers in order to assist them in making educated purchasing decisions while promoting good business practices and trust in the marketplace.

In 2019, BBB Serving Metro New York assisted television, print, online and radio media for a variety of stories. These stories reached consumers locally, regionally and nationally. The topics ranged from scams targeting job seekers to how to choose a trustworthy charity to support. Earned media during 2019 exceeded $7 million.
